

place it on record as the sentiments—every word of it—of the company.

Messrs. Horner and Dole each offered a resolution upon the subject of opium. Mr. Horner's was:

WHEREAS, At the last annual meeting of the Planters' Labor & Supply Co. the foregoing resolution was passed:

Resolved, That the Planters' Labor & Supply Co. hereby place themselves on record as being opposed to an opium license, which they consider injurious to the planting interests of the company and regret that a law permitting it was passed, that we wish at this meeting to reiterate and emphasize said resolution. And further that we hereby urge and petition the Legislature at its next session to repeal said law.

The following, by Mr. Dole, was adopted:

WHEREAS, The licensing of the sale of opium in this Kingdom has resulted in largely extending its use, which is not confined only to the Chinese, but is also spreading and increasing among Hawaiians and others, and

WHEREAS, The agricultural, laboring, mechanical and other interests of the country are injured and depressed in a degree corresponding to the spread of said use of opium; and

WHEREAS, The injury done to said interests and to individual users of opium is not and never can be compensated by any mere revenue to be derived by the Government from the opium license, therefore

Resolved, That it is the opinion of the Planters' Labor & Supply Co. that the law licensing the sale of opium ought to be repealed as soon as possible, not to conflict with rights now outstanding, and that the Government and the Legislative Assembly ought to use every effort to control the use of opium, that its sale and use should be made unlawful and that the traffic should be stamped out by vigorous legislation, and for that purpose this association favor the re-enactment of the law of 1874 or similar legislation.

The subject of road taxes was next taken up for discussion.

A motion was accepted that it is the sense of this company that the office of Chief District Road Supervisor for each island be abolished and a law framed having for a basis a Board of Road Commissioners in each district to serve without pay.

A resolution was adopted that the licensing of liquor saloons in the country districts has been detrimental to the planting interests and that it is the sense of this meeting that they should be abolished.

It was, on motion, passed that the whole subject of the Planters' Monthly be put in the hands of the Trustees.

Mr. T. Rein Walker presented a report on Forestry, which was approved and ordered to be published.

A discussion took place on the subject of forestry, in which Messrs. Horner, Dole, Spalding, Lidgate, Glade, Walsh, Baldwin and Walker were the speakers.

Adjourned to 2 o'clock p. m.

AFTERNOON.

Business was resumed at 2 o'clock. The report of the Committee on Transportation was adopted.

On motion that a committee of three, the President being one, be appointed to report at next annual meeting a plan for reorganization of the company upon a simpler and more effective basis than the present system, not inconsistent with the charter, the President, Secretary and Treasurer were appointed a committee for that purpose.

The report of the Committee on Machinery was adopted.

Mr. Spalding spoke of the difference between high pressure and low pressure vacuum pans, stating that all the vacuum pans hitherto used in the country are high pressure, and he hoped that experiments would be tried with low pressure pans having shorter coils and more of them.

The President appointed the following committees for the ensuing year:

Labor—E. M. Walsh, R. R. Hind, G. N. Wilcox.

Cultivation—J. M. Horner, C. Koelling, A. S. Wilcox.

Machinery—A. Haneberg, R. Halstead, J. Ross.

Legislation—W. O. Smith, W. R. Castle, D. H. Hitchcock.

Reciprocity—P. C. Jones, W. W. Hall, C. R. Bishop.

Transportation—W. Y. Horner, J. N. Wright, G. H. Dole.

Manufacture of Sugar—Z. S. Spalding, C. Koelling, W. Goodale.

Live Stock—B. F. Dillingham, C. Noley, A. H. Smith.

Forestry—T. R. Walker, W. J. Lowrie, E. G. Hitchcock.

Fertilizers—J. M. Lidgate, E. H. Bailey, W. Y. Horner.

Varieties of Seed Cane—W. H. Rickard, W. H. Purvis, C. J. Holmes.

Fruit Culture—S. B. Dole, John Austin, G. P. Castle.

On motion, the meeting adjourned sine die.

FOREIGN NEWS.

George Bancroft, the historian, was 87 years old on the 3d inst.

Four more cases of cholera had developed up to the 4th inst. among the inmates on Hoffman island, New York, making fourteen cases under treatment.

The New York Yacht Club has appropriated \$500 for a suitable testimonial to General Charles F. Payne, in recognition of his skill and ability in three times defending the Americas Cup.

Rev. Father McTigue has been chosen principal of a Pittsburgh school. It is believed to be the first case on record of a Roman Catholic priest being called to such a position in a public school.

Silas M. Bailey, late Treasurer of Pennsylvania, has been adjudged by the Supreme Court, affirming a decision of a lower Court, to be liable for nearly \$100,000 deposited in different banks all over the State and lost by the failure of some of the banks.

The last of the Republican officials has been removed from the Washington Treasury Department, in the dismissal of S. G. Martin, Chief Clerk of the Special Agents. His successor, Col. James A. Jowell, is said to be a man of ability and character, and will begin with a thorough reorganization

of the system from Maine to California.

Sir Thomas Gratton Esmonde and Arthur O'Connor have come to America as representatives of the Irish parliamentary party, to explain the condition of affairs at home and to thank the American people for their support in the past and ask them to continue it. O'Connor expects a general election next spring, when he says the Unionist party will be wiped out.

Three members of the Utah Commission have filed a majority report in Washington, the remaining two declining to assent to all the conclusions. The population of the Territory is estimated at 200,000, a gain of nearly 60,000 since 1880, and the assessed valuation of property is \$35,665,802. The total Mormon population in the Territories of Utah, Idaho, Arizona, Wyoming and New Mexico, and the States of Nevada and Colorado is 162,383. The strength of the non-Mormon element in Utah is estimated at 55,000, owning nearly one-third of the assessed property, exclusive of railroads. Different religious denominations have in Utah sixty-two churches, which have established and control eighty-seven schools, with an aggregate of 6,688 pupils and 230 teachers. Since the passage of the Edmunds law in 1882, 541 persons have been indicted for unlawful cohabitation and 280 of these convicted. Fourteen persons were convicted of polygamy. The movement of Mormons to gain admission as a State with a Constitution made by themselves is regarded by the commissioners as an effort to free the Church from the toils which the firm attitude of the Government and the energetic course of the Federal officers have thrown around it. They therefore oppose its consummation.

In conclusion, the commission submits that in its opinion the results of the Edmunds Act have been very beneficial to the Territory.

Proprietor of dime museum to applicant—What is your specialty, lady?

Applicant—I'm the young lady what has been teachin' school five days in the week for \$10 a week, helpin' mother to do the work, takin' care o' three horses an' two cows, paintin' an' paperin' the house, mendin' clothes for father an' the boys, an' darnin' socks for the hull family. How much will you pay me?

Proprietor—Same as I pay all the rest of the freaks, lady. A thousand dollars a week.

The inventor of the roller skate is said to have realized a million by his invention. But the roller skate had only a short run and is now almost entirely played out. There are dealers who have thousands of pairs on hand which they despair of ever getting rid of. Skates that sold a few years ago at \$5 and \$6 a pair, can now be bought at \$1.50 or less, and there is a good profit on them at that. One effect of the skating mania was largely to increase the price of boxwood, and this affected the wood engravers, who had to use an inferior article till the price went down.

One of the most successful lawyers of the Northwest recently said that the secret of his success was that he always made the work of his employer his own work. "I always made it my haying or my harvesting, working as if the field and crop belonged to me. Whether my employer was present or absent it made no difference with my work. And that has been my single rule of work through life, at the blacksmith's forge, in the harvest field, or as a hired attorney at the bar. I worked with might, mind and strength in any cause in which I was engaged. Now that's the whole of it—and that surely is no secret."

Colorow seems to have subsided almost as rapidly as Boulanger.

Paradoxical as it may sound, the greatest blow to a yachting contest is an absence of wind.
